JOHN BURRILL, 36 Kilby street, Boston, is our agent.

Printed on Gurney's Improved Cylinder Power Press

THE GREAT
American Discovery
—IS—
Dr. Barber's Diapent

THIS valuable Medicine is composed principally of Herbs, by whose stimulating and penetrating properties, when applied, instant relief is diffused through the whole system, and in a most incredible short time a few minutes. You have only to try it, when you will be convinced that no preparation ever offered to the public, for the relief of the afflicted, possessed in so high a degree its perfect Anodyne qualities, its union of power, promptness, powerful, safe-effectual, without in the least endangering the stomach.

It penetrates the flesh to the bone, relaxes the contracted muscular powers, restoring free action to the joints and limbs which have been rendered by years or affliction almost entirely useless. It is, therefore, hailed by the suffering as the greatest blessing of the age, and no one would ever allow himself to be without this sovereign balm after he had once witnessed its magic influence over disease, and its potency in relieving pain, however severe. The perfect consciousness of its unquestionable efficacy, beyond experiment, makes me bold in asserting its transcendent virtues. Referring to the numerous certificates in the hands of agents, which were given voluntarily and cheerfully, from a sense of gratitude and justice, by persons of the most respectability, (and their statements attest to the truth,) you will find it has no equal, in the whole world, for a speedy, certain, and lasting cure of Rheumatism. It will also cure Neuralgia, Pains in the side and Back, Cramp, Scalding, Numbness, Weakness of Joints, Spine, &c. Also, Dyspepsia, and all Nervous Diseases, proceeding from the stomach. Also, *Dr. Barber's Rheumatic Ointment*, a sure remedy for Corns, Bunions, &c. &c. Sold by Dyott & Sons, A. B. & D. Sands, Burr & Perry, Boston, and all dealers of Patent Medicines.

For sale by SAMUEL E. PERKINS, No. 1 Kenduskeag Bridge, Bangor. oct2 3m

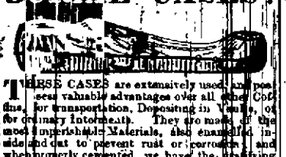
New Patent Metallic
BURIAL CASES!



THESE CASES are extensively used, and possess valuable advantages over all other Coffins, for transportation, Depositing in Vaults, or for ordinary Interment. They are made of the most imperishable Materials, Cloth enamelled inside and out to prevent rust or corrosion, and when properly cemented, we have the satisfying reflection that the bodies of our deceased friend ones enclosed in them are free from Dampness of Water or Depredations of Vermin, and may without offensive odor, be kept, obviating the necessity of early burials, or if desired, transported to a distant land. The remains of the late

Hon Henry Clay, Daniel Webster, and many other distinguished persons have been entombed in receptacles of this kind.

Also, Mahogany, Black Walnut, Birch and Pine

COFFINS,
of all sizes, constantly on hand at the Furniture Ware Rooms of
A. & E. Dole & Co.,
Hammond street—opposite the Court House.

PATENTS.
American and Foreign Office,
AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.
No. 76 State Street opposite Kilby St.
BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) desirous to present advantages in applying for patents to inventors in those different places, by the use, has made arrangements, whereby, on application, plans prepared and conducted by him. THIRTY DOLLARS (*insteed of twenty*, as paid back by others,) will be required by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days of the rejection by the Patent Office. Specifications, assignments, and all necessary papers, and drawings, for procuring patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors have not only to obtain their specifications on the most reasonable terms, (generally about 30 per cent less than those of others in the profession,) but avail themselves of the experience of twenty years' practice, his visits to the Patent Office, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being advised journey to Washington, the legal great delay there, as well as all personal trouble in obtaining their patents. Copies or claims of any patent furnished by remitting *one dollar*. Assignments recorded at Washington. Patents in Great Britain, France, and other foreign countries, secured through agents of the highest respectability.
H. H. EDDY, *Solicitor of Patents*.

"During the time I occupied the office of Commissioner of Patents, H. EDDY, Esq., of Bangor, was a frequent visitor to the Patent Office on business for persons there were few, if any, persons acting as solicitors, who had so much business before the Patent Office, and those who done with it, gave more satisfaction, and practice. I regard Mr. Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and take pleasure in assuring inventors that they cannot employ a person more competent, more trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]
"August 17, 1855.—During the time I have been in the office of Commissioner of Patents, H. H. Eddy, Esq., of Bangor, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules and practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
CHARLES MASON,
Commissioner of Patents."

Boston, Sept. 1, 1855 3mwd&sowly

DE GUINGO'S IMPROVED
Non-Explosive Camphene & Fluid

LAMPS and CANS.

HAVING purchased the Patent right for the State of Maine for the above Lamps, I am now prepared to offer terms to purchasers in every part of the State. Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the *only sure* preventive against explosions from Camphene and Burning Fluids, being made of the most durable material, not subject to accident from breakage or corrosion, and will burn with perfect safety, giving an equal and steady light, the nearest to sunshine ever produced.

As the above Lamps have proved, after three years trial, to be the best Lamps in use, giving universal satisfaction, and having no objections.

Ladies who have these Lamps will find *them as low as the ordinary Camphene and Fluid Lamp*, by J. S. RICKER, 161 Main Street, Bangor, Me., dealer in Lamps, Chimneys, Glass, and Crockery Ware.

Fashionable Rich Millinery!
Mrs. R. JORDAN,
No. 46 Main-st.,---Bangor,

HAS just returned from New York and Boston with a varied, rich and desirable assortment of Fashionable Millinery. No pains have been spared in making a selection of

BONNETS,
Caps, Ribbons, Flowers, Laces and Rich Trimmings:

and the Ladies of Bangor and vicinity may be assured that the Goods now offered to them are well worthy their examination.

The latest of Fashions have arrived, and the whole stock is of seasonable Goods is now complete.

Mourning Bonnets of all materials, always on hand, and orders for them known at any time.

Work in all departments sure to give satisfaction, and cannot be surpassed.

Ladies who wish to have their Bonnets pleasantly and pressed, as they should be done, should leave them with Mrs. Jordan, whose long experience well known.

Ladies call and examine, and find prices satisfactory.
Bangor, Oct. 10, 1855 3tawd&w6w

150 MILLION, OF
White Pine Timber!

THE undersigned has a tract of 6,500 acres of superior Pine timber land in Potter County, Pennsylvania, conveniently situated on the tributaries of the West Branch of the Susquehanna river, and will contract with responsible parties for getting, sawing and delivering the lumber on said land at Market, Pennsylvania.

If experienced lumbermen, with a small capital, a very advantageous operation can be made.

References will be required and given. Address, by mail or otherwise, to HARRY CONNELLY, Philadelphia, which will meet with prompt attention.

N. B. No contract will be made for the delivery of less than two millions per annum.
nov16 3tawdlm

SINGER'S
SEWING MACHINES!

THESE machines have long surpassed the highest expectations in the United States—Europe and other countries, besides being advanced a step further at the great Exposition at the Palace of Industry in Paris, and there they have the World's verdict of superiority.

Great improvements have just been added, so that they run without noise, with ease to the operator, and double the previous speed, so that

Two can as much Work can be done in a day.

The greatest clothing and shoe manufacturing establishments in the country use these machines exclusively, as they are competent to perform every sort of work in the most perfect style.

As there are very great numbers of inferior or entirely worthless sewing machines of the Lerow & Blodgett, Avery, Wilcox, Grover & Baker, and other patents, which have been sold, but cannot be used to any advantage, we hereby offer to accept all such machines, and also unimproved ones of our own manufacture, *in exchange for new and latest improved machines*, on liberal terms. All old machines thus taken in will be broken up and destroyed, or purchased by letter or personally at our New York Office.

N. B. Local agents wanted to make sales of our improved Sewing Machines. To persons properly qualified for the business a rare opportunity for profitable employment is offered.

THE CONTEST FOR SPEAKER. Our Washington despatches show that no choice of Speaker was effected yesterday, (5th,) although the anti-Nebraska strength appeared to be concentrating upon Campbell, who, on the 15th ballot received 80 votes, being a plurality of 6 over Richardson, the administration candidate. 218 votes only are reported. Mr Greeley says the free soilers have from four to eight majority.

Congress and its Work.

The readers of newspapers cannot fail to observe that the opening of the present Congress is the signal for much of excitement, and that every day new interest clusters about political affairs. The real struggle going on in Congress, is between the sentiment of freedom in the minds of the people, and the slave power of the country. This colossal power, which never sleeps and never flinches, knows well the advantages which it gains in dividing its opponents. This is the game now in hand, and since the people begin to understand this, they will watch their representatives with the greater discrimination. Men and presses under the varied manipulations of the slave-power, are continually caving in to do its work. The poltroonery of those who shrink from giving utterance to the sentiment of freedom at a time like the present, will awaken the scorn of every honest heart and clear head.

The present Congress has heavy work before it, and we are yet to learn if it have the intelligence and courage to perform it. The decision of the great issue between freedom and suffrage in the settlement of the seat of Gov Reeder as a representative, is a portion of the work. His admission will be a step in the right direction. The giving of freedom a fair chance in the Territories will be another step, and this should be done by giving to Kansas laws strong enough to shield it from the outrages and demoralization to which it has been made subject by the forestalling force of the slave-power.

The hope of the country rests at present upon the House of Representatives elected for the express purpose of giving an open expression of the sentiment of freedom, and also to adjust the new difficulties sprung upon the country by the Kansas and Nebraska bills—the repeal of the Missouri Compromise and the daring aggressions of the slave-power.

We await with trembling anxiety, the action of this body, both in its organization and in its general proceedings.

In addition to the other matters of special excitement which will come before Congress, is the side issue of a Presidential election, and which will be likely to enter into about every subject, public and private, which shall come up for action. It will not be stating the case too strongly to say that there are men in Congress to whom the matter of President making, is of more consequence than all other subjects, and to these so far as they are able to effect it, all else must yield.

Were it not for the perpetual effort of the slave power to make sure of its own existence and extension, the people of the United States could reap in quietness the unnumbered social blessings which heaven with a liberal hand is showering down upon them. But this slave power ever strangely confronting freedom, caused our political institutions to rock on their foundations, and passion and selfishness to rule the hour.

It is sad indeed, to see that the numberless blessings which should attend upon our American institutions are willingly jeopardized in order that slavery may hold the reins of power. In such a struggle our free institutions become a by-word and our history excites the contempt of the world. But our hope is that this is free soil hour, and that the lesson is soon practically to be taught that freedom is national, and slavery sectional.

BUTTER AND CHEESE IN CALIFORNIA.—A San Francisco paper chronicles the sale of 5000 pounds of dairy cheese from the vicinity of Petaluma, to the market dealers, at 35 cents a pound. The Petaluma Journal says that, during June, July and August, one firm in that town bought and shipped to San Francisco over 22,000 pounds of butter, which averaged fifty-eight cents a pound! In San Francisco, table butter has been selling during the summer at from 75 to 85 cents a pound, and, at the selling of the steamer, it had run up to $1 to $1 12, wholesale, and $1 25 retail!

The Boston Journal states that Capt. Nickerson of schooner Harbinger, which arrived at that port on Sunday, from Batchel, reports that when half way between Cape Tiberon and Cape Donna Maria, his vessel was fired at from the shore, the cannon ball passing only about ten feet astern. He immediately hoisted his colors, and was not further molested.

Lola Montez, with her troupe, made her first appearance before an Australian audience at the Royal Victoria Theatre, in Sydney, Aug. 23, in "Lola Montez in Bavaria." The political allusions in the piece drew forth much approbation from the audience. The theatre was crowded to excess. The performance seems to have been very successful.

Samuel Penhelt, editor of the Boston Courier, died at Malden, on Monday night last, after nearly a year's confinement by sickness. He was an able and forcible writer, and even his peculiarities will be missed from the editorial profession.

Wendell Phillips, Esq., will deliver an anti-Slavery Lecture before the Orono Lyceum this evening. He delivers another Lecture in the Independent Course in this city, on Friday evening, at Norombega Hall. Subject, The Philosophy of Reform.

The Northboro Bank at Northboro, Mass., suspended payment on Saturday.

A Slight Misunderstanding among the Allies.

The Democrat of the 4th administers a gentle rebuke to its collaborer, the Journal, for getting somewhat off the Democratic track, degrading the "original" doctrine of non-intervention. It will be observed that the Democrat now objects even to the Straight Whigs calling themselves "anti-Nebraska men." If they wish to profit by an alliance with the democracy, they must walk square up to the Pierce platform, and forever set aside all precedent opposition to the Nebraska villainy.

But we will quote the Democrat:

ARE THE STRAIGHT WHIGS FOR POPULAR SOVEREIGNTY?—In replying to an article in the Whig, the Journal last Wednesday made this remark:—"There is not a Whig in this State whose not and Nebraska in his principles and sentiments." It is generally conceded that the Journal should know much better than ourselves what are the principles and sentiments of the "straight whigs," but we are a little surprised at its remarks, if the true meaning of it is that there is not a "straight whig" in the eastern section of the doctrine of Popular Sovereignty, the great principle of the Kansas, Nebraska act, for we have heard some of them say that they all were. We do not perceive how they can be otherwise, as they profess to be Democrats in their principles.

The Journal speaks for men whose peculiar position has caused them to be known as the "allies" of the democracy in Maine; those allies, have acted in good faith and declare they will continue so to do. Yet there not unfrequently appears in that paper, also in the State of Maine, the other "straight whig" paper, articles showing hostility to President Pierce the head of the party with which they and their friends are acting as "allies" in this State. Now we submit whether this is right. Harmony is not produced by assisting the head of a party it must be to weaken and render the party less efficient. The French and the English are acting as allies against Russia, but do the English assist Louis Pelissier or Louis Napoleon, or the French Gen. Simpson the British Commander or Queen Victoria? War upon each other is incompatible with the relation in which "allies" must stand to each other. They must be sincere and must unite, both, and render the attainment of common objects less certain.

We understand Hon. Geo. Evans, and Hon. E. W. Farley to be in favor of the doctrine of popular sovereignty. Are we misinformed?

Yes, Mr. Journal, step up and answer. Do the Straight Whigs assent to democratic doctrines—yea or nay? Are they going to support these "allies" in the coming campaign—yea or nay? American manhood is requested previous to the division of the spoils at Augusta, Wednesday, to demand an understanding with the relation in which "allies" must stand to each other.

The Democrat remarks very cruelly that the Straight Whigs must go either with the Republicans or the Democrats. The editor tells the Journal:

Which the one or the other they must be eventually, for they surely cannot stand alone, and must go somewhere.

The Mercantile Association course of lectures will be opened on this evening at Norombega Hall, by Bayard Taylor, Esq., of New York, subject of the lecture, the Arabs.

Messrs. Sanborn & Carter, of Portland were awarded by the Paris Exhibition, a medal of the second class for the invention of a machine for backing books.

Gen. E. P. Walker, editor of the Vermont Voter Journal, died on the 27th ult., at the age of 66 years.

The Albany Register, the leading American paper in New York, appears to favor the pretensions of George Law to the Presidency.

Hon. Edward Everett is not connected with the North American Review, as has been erroneously reported.

The weather for several days past has been delightful, brighter, and finer weather for the time of year can hardly be imagined.

Thanks to H. H. Edwards' Express for Boston papers of yesterday afternoon in advance of the mail, brought by steamer Boston, which arrived at her wharf in this city before one o'clock.

The Boston and the Kennebec both arrived at this port yesterday afternoon, but did not get to Frankfort again last night.

To the Editor of the Whig and Courier.

Through the medium of your paper, I would like to enquire of the Committee of the Mercantile Association, if tickets for family use to attend the Course of Lectures, cannot be furnished at a less price than one dollar and fifty cents a ticket.

Dec. 3, 1855.

The question having been asked what the striped squirrel does with the dirt when he digs his hole, as none is left about the orifice, a correspondent of the New England Farmer responds by saying:

"I had supposed that mausolins knew, and every intelligent former ought to know, that a striped or ground squirrel, when he digs his hole, carries the dirt in his cheeks to a distance of several rods from where he digs it. In proof of the above I can show a pile of dirt where it has been left by them, and have several times killed them with the dirt in their faces or cheeks."

"PHARAOH, POTIPHAR, and PIERCE!"—Horace Mann (Hon.) in lecturing on slavery at the Tremont Temple, Boston, the other evening said:

"He thought the President's course upon the questions of slavery and liberty rendered him worthy of being placed, with the two great law-givers of old, and so, by his additional, make a glorious triumvirate of 'Pharaoh, Potipher and Pierce!'" (laughter.)

STEERAGE PASSENGER SLAVES.—The ship Middlesex, Capt. Cook, which arrived at this port on Sunday, from New Orleans, when off the coast of Florida, picked up two negroes, who were in a small skiff out of sight of land. When taken on board they refused to give any account of themselves, and the probability is that they are slaves, escaped from some land in that region. Capt. Cook landed them in irons, and notwithstanding certain acts of the legal duties he should perform, he brought them to this city to obtain advice from the proper authorities.—*Boston Traveller.*

Much excitement has been produced in the Disciples' College, Bethany, Va., by the attempt of a student named Burns to preach against slavery. The Southern students determined to lynch him, but he escaped. All the Northern students had determined to leave.

THE INDIANS.—The Washington Star says that the Indians in Oregon and Washington territories do not commit their outrages indiscriminately upon the whites, but only upon the Americans. The subjects of Britain there remain almost entirely unmolested by them. This is accounted for by the fact that their arms and ammunition are procured from the Hudson's Bay Company, which still has stations in that quarter of our country. By the treaty, they may retain their posts and trading houses on our side of the line until the government pays them a valuation for them. Having availed themselves of the privilege (no provisions having been made by Congress to dispose of them as provided) their commerce with the house savages is nearly at the bottom of most of the murders and robberies the latter are committing on our people.

A NEW CLASS OF CLAIMS.—We understand that many of the United States Senators have presented claims on the United States Treasury for "constructive" mileage in attending the sessions of the Senate which take place immediately on the adjournment of a Congress. Of late years the Senators have been paid mileage under such circumstances, out of the contingent fund. As the money to pay these claims is ex-Senators, who went out of public life before the custom began, must come directly from the United States Treasury, it strikes us as being probable that they will eventually have to go to Congress for the necessary appropriation, if paid at all.—*Washington Star,*

REMARKABLE LONGEVITY.—Died in Abington, on the house of her son-in-law, F. B. Sharp, Esq., Mrs. Abigail Leonard, at the advanced age of 92 years and 3 months.

The longevity of the Ripley family, of which the deceased was a member, has been remarkable! She was one of 19 children, 9 sons and 11 daughters, by the same father and mother. Her mother died in her 91st year. Of their 19 children 10 lived to be over 70 years of age, 6 over 80 and 3 over 90. The only surviving member of the family is Lincoln Ripley, a Congregational minister living at Waterford, Me., in his 95th year. Of the other brothers, Nehemiah and Erra Ripley were ministers of the gospel, the latter was pastor of the church in Concord, Mass., for more than half a century.

The Petersburg, Va., Express says:

Every day for some time past, the firing of great guns in the environs of Richmond has been kept up. The Tredegar Company had a contract for casting the guns for the new steam frigates, and they have thus far proved a match for Uncle Sam's powder and ball—not one having bursted in the test to which they have been submitted. They are now trying two formidable guns, made for the government, upon an entirely new plan. Each gun is to be fired one thousand times in succession with the ordinary charge, and if they stand the test, then the charge is to be increased, and the guns fired until they burst. The object of this is to ascertain at what shot or the gun the greatest explosion takes place—the thickness of the metal in these pieces having been graduated upon a plan different from that hitherto in vogue.

Chicago as a grain mart is attracting the attention of the world. Within the last 18 days, says the Chicago Press, the Marine Bank has paid checks of Mr. E. H. Hurlbuck, of Chicago, to the amount of $2,200,000, all of which have been given for the purchase of wheat.—Among these checks was one to a well-known grain and commission house of Chicago, for $92,000, and one to another extensive business house for $86,000. Mr. Hurlbuck is still in the market, as are other parties also, and we presume will continue to purchase as long as shipments can be made by lake. Last year the total grain trade of Chicago fell short of 15,000,000 bushels. This year it will exceed 20,000,000 bushels.

THE ART OF HEALTH.—Walking is the best possible exercise. Habituate yourself to walk very far. The Europeans value themselves on having subdued the horse to the use of man, but I doubt whether we have not lost more than we have gained by the use of this animal. No one thing has occasioned so much degeneracy of the human body. An Indian goes on foot nearly as fast in a day, on a journey, as an enfeebled white does on his horse, and he will tire the best horses. A little walk of half an hour in the morning when you first rise is advisable. It shakes off sleep, and produces other good effects in the animal economy.—*Jefferson's Memoirs.*

FIRE.—The store occupied by Greenville Files, in Newport Village, last Saturday, P. M., was discovered to be on fire in the second story, containing the Masonic Hall and a law office, by Geo Whitney, Esq., which, after great exertions of the citizens, was extinguished without further damage than the destruction of the roof of the building and the damage to the apartments above named. The books and papers of Mr. Whitney (who was absent,) were saved. But little injury was done to the goods in the store, which were all moved out. Damage to the building $200 to $300, which we learn was insured.—*Journal.*

THE LONDON POPULACE.—The London correspondent of the National Intelligencer writes that the *mob* of London is undoubtedly becoming *power* in the State. On more than one occasion during the last twelve months the street population of London has dictated to the Government, and the Government has yielded to the dictation. The mob succeeded in putting a stop to Lord Robert Grosvenor's Sunday bill. The result has been that the mob feels its power, and threatens now to interfere with the operations of trade and to keep down and fix the price of corn.

The examination of Dr Cleaveland at Lowell, previous to his installation, seems to have been pervaded by a spirit of genial humor, to which the candidate contributed his full share. When asked, "What relation do baptized infants sustain to the church?" the candidate said he knew nothing about the matter; he believed the church should make more or less of infant baptism; either give it up, or make it mean something. Being asked if infant baptism secured salvation, he answered emphatically in the negative. He had known those baptized in infancy, who had lives of wickedness, and if any one has gone to perdition they have. At the installation dinner, clergymen of all denominations, even those accounted the most heterodox, were present by invitation and participated in the festivities.—*Providence Tribune.*

Hoops. In some of the fashionable churches where five could sit last year, only three ladies can sit this year on account of their hoops.—The consequence is, that more pews must be hired, and the prices of available ones are increased.

The statement that the ladies of the first families employ a cooper to hoop them on great occasions, proves unfounded.—*New York Times.*

"WHAT SUNDAY SCHOOL IS THAT?" It is pretty generally known Elizur Wright is at the head of a large family of children. While walking with them upon the Common, the other day, a gentleman stepped up and thus accosted Mr. Wright: "Sir, what Sunday school is this that follows you?" Mr. Wright laughed, and then replied, "the Hard Shell Baptists."—*Boston Courier.*

The late Homer Trow, who died at his residence in Litchfield county, Conn., last week, bequeathed some $3500 or $4000 of real estate for the education of colored youth.

LATER FROM EUROPE.

ARRIVAL OF THE

AMERICA,

AT HALIFAX.

MATTERS QUIET IN THE CRIMEA.

PRUSSIA MOVING FOR PEACE.

HALIFAX, N. S., Dec. 5.

The Royal Mail Steamship America, which left Liverpool about 10 o'clock on the morning of the 24th, arrived here to-day at half-past one P. M.

The War.

Correspondence from the Allied Camp on the Tchernaya, Nov. 10th, relates solely to the position of the armies.

The Allies are still apprehensive of a Russian attack.

Paris correspondence of the London Globe, a ministerial paper, learns that although the winter has stopped field operations in the Crimea, it is intended to embrace the North Side of Sevastopol, in order to permit the allied fleets to winter in the harbor.

Letters state that the town of Marioupol, on the north coast of the Sea of Azoff, was bombarded by the Allies on the 31st October. Two hundred shells were thrown, and the town set on fire, till an Austrian merchant hoisted the Austrian flag over a warehouse, when the firing ceased.

General Waagh was rumored to menace the allied position at the Straits of Zenikale. The allies had, however, 31,000 men there, and expect to be reinforced by 15,000 more.

The Invalide Russe announces that large numbers of the allied troops embarked at Eupatoria on the 14th inst. and sailed westward.

Asia.

Trebizbode advices of the 5th, say that during past fortnight no news had reached Erzeroum from Kars.

Omar Pacha's vanguard had reached Okum.

Smyrna Hospital is evacuated, and converted into barracks for Turks and German Legions

Baltic.

Admirals Dundas and Pyland with flag ships and parts of fleets are in the Bay of Kiel.

A steamer is detached to watch for an American clipper supposed to be on the Baltic with a cargo of revolvers.

Sweden.

Sweden joins the Alliance.

Respecting Castenskiold's mission to Sweden, we have only Paris rumors, but the rumor is important—that terms of a military convention are agreed to—that Sweden will furnish a contingent to act with Allies next spring, if peace is not previously restored, and that the army of French, English and Swedes will be sent to Courland to force Prussia and Austria to declare themselves, and in return for their alliance, the allies will guarantee Finland.

Candahar has been overwhelmed with honors. His mission to Denmark is now the great point of interest. Want of success there might neutralize the apparent gain in Sweden, as it must be believed that these two powers could adopt different lines of policy. The London Morning Post, however, contradicts this statement of the Times, with regard to the alleged Swedish alliance, and says that the Times details of a military convention and assertion of the adhesion of Denmark are without foundation.

Some rumors of a disposition on the part of the Russian Government, to make the first advances to negotiate for peace, continue to prevail, but no exciting reliable information that mercantile classes. Russia are weary of war, there is no apparent ground for the rumor. It is however fortified by repeated that M De Bruster, the military envoy of Prussia at St Petersburg, had visited the Czar at Nicholaeff, with a view of influencing him to reconsider certain conditions of peace, such as would be laid before the French and English cabinets. The Czar listened favorably to M De Bruster's propositions.

The Grand Duchess Helena is now in possession of the heirs of Emperor Alexander, and is empowered to make them known to the Western Powers, who, on their part, have not refused to listen to them, though at the same time they have declared them to be insufficient.

The great fact is, that the negotiations between Russia and Prussia on this subject, are still going on. The court of Berlin is making the greatest efforts to induce the Czar to consent to such terms as will really lead to a pacific result, as the Prussian cabinet is sufficiently well acquainted with the firm resolution of the allied powers. The continuance of the negotiations affords some ground for hoping that there is at least a chance of peace.

Turkey.

Constantinople correspondence describes a bad state of affairs. Murders and robberies in open streets, with great and increasing fanaticism against the christians, especially against the French. The Allied commandants have called on the Turkish Government to prevent the outrages, under the threat of the Allies immediately taking the police of the city into their own hands.

Several of the Tunisian mutineers have been condemned to death, and the rest of the Tunisians will be sent to Batoum and Souchum Kale.

The loss by the French killed in the recent raid was more considerable than was at first reported.

Russia.

The London Times has elaborate editorial calculations, showing that the total available strength of Russia is eighty-three per thousand, and that she has already used sixty-eight, which allows only seven months more at the past ratio, to exhaust her last man. Her last cash rouble being already expended.

A general reconstruction of the Russian Empire is talked of. The maritime administration at Nicolaieff is placed under the orders of Gen. Lueders, to whom in this respect, Gortschakoff is to be subordinate, with the object of securing greater unity of operation.

It is believed that the Congress of Russian diplomats which was to take place at Warsaw will be held at St Petersburg soon.

A despatch from Berlin says the Russian loan from German capitalists has been concluded.

The Czar arrived at St Petersburg on the 19th in good health. He has withdrawn the inducement to poor nobles to enter the army.

Great Britain.

Prince Albert laid the foundation of Birmingham institute, when there was a great banquet. Nothing said respecting the war or politics.

The military campaign being ended, and the political campaign not opened, speculation is indulged as to the probable action of Parliament. The ministerial course is evident—few debates, and many estimates. The course of the opposition is less clear, but will likely force to a dissolution.

Henry Labouchere has been sworn as Secretary of State for the Colonies. The Duke of Argyle is now Postmaster General, retaining in the meantime, office of Lord of the Privy Seal, which office rumor says, will be given to the Duke of Newcastle.

The number of Manchester operatives on a strike is 8400, of whom 1700 are thrown out of work by the stoppage of the other hands. They all conducted themselves peaceably.

A petition is circulating in Liverpool for the re-establishment of the Kingdom of Poland.

The report of the commission on the recent Hyde Park riots is published, and the conduct of individual policemen is censured, but general forbearance of the force commended.

Captain Robert McClure, Arctic navigator, is knighted.

General Markham is dead. He was wounded in the Canadian rebellion, came home sick after the fall of Sebastopol.

Dr Dorega is prominently before the public, from several papers endeavoring to discredit his statements regarding his service within Sebastopol.

France.

The King of Sardinia is in Paris, he was favorably received. Papes Nuncis has left the city that he might not come in contact with the excommunicated Sovereign.

It is reported that the Emperor has invited the Pope to Paris to baptize the coming child. All French men, boats and mortar ships are wintering at Cherbourg, and the ships of the Baltic fleet are expected. The Rothschilds have purchased the Russian prize ship, Sitka, (ex Pierce-packet), for one hundred and eighty-eight thousand francs. The International Convention on uniformity of weights and measures, held in Paris, is meeting in Exposition building.

Bishop Bourget of Montreal, has reached Havre on his way home from Rome.

The funeral of M. Pillet, a celebrated Parisian lawyer, was attended by many notables.

Admiral Baudin is appointed Governor of French Guiana, and Admiral of a squadron.

Italy.

Reinforcements of troops are ordered to Sardinia, where further disturbances are apprehended—the local authorities having promised more to the riotous than the Government will sanction.

The Spanish Government is reported to be unanimously in favor of joining the alliance, but the occasion is deferred until Spain can appear as a great nation.

Gen. Zabala was desirous to have command of the contingent, and being discontented that another General was chosen, will probably retire from the Cabinet.

Belgium.

The estimates of expenditure show a deficiency of eight million francs, caused by a vote of twelve and a half millions for the defence of the country and relief of distress.

Denmark.

There was every chance that the Sound Dues Conference will be opened at Copenhagen, on the 20th of November. Russia is the only government that will send a Special Envoy; other Powers accede by their resident ambassadors, assisted by persons conversant with the subject. It has been settled that Russia may take part in the Conference simultaneously with the Powers with whom she is at war.

Prussia.

Subscriptions for shares of the Credit Mobilier open Dec. 10th.

Italy.

The Sardinian financial estimates propose a loan of ten million francs.

Russia.

Letters from St. Petersburg state that in consequence of the facilities of transport from Prussia, it is believed that considerable quantities of linseed will be exported overland, and that general exports after Dec. would be sufficient to produce a rally in the rate of exchange.

According to reports from the Prussian port of Memel great quantities of saltpetre, saltpetre and other contraband articles of war continue to be sent over the frontier, parties in trade insuring, at a small premium, its delivery on Russian territory.

King Otho opened Parliament on the 12th. He promised maintenance of neutrality, preserving, at the same time, the friendship of Foreign Powers.

A slight difficulty with the United States has been settled to the satisfaction of all interested.

Latest.

LONDON, Saturday 24th, 9 A. M.

Political rumor—It was stated with confidence in Downing St. yesterday, that Lord Palmerston has determined upon an immediate dissolution, that the announcement will be made public in the course of a few days, and that the new Parliament will be called together early in February.

Denmark.

COPENHAGEN, Friday.

Gen. Canrobert arrives to-morrow forenoon, and will stay at the Hotel D'Angleterre; on Monday he will have an audience with the King at the Palace of Christianneburg. He is expected to remain here a week.

The Post says, we can state on good authority that there is at present no prospects of a Swedish alliance, and that the statements which have been published respecting a military convention, and as terms are purely imaginary. Parliament will meet about the usual time namely the end of January or the beginning of February.

Death of Lady Emmeline Stewart Wortley.

The Death of this lady is announced. She died at Berrout, on the night of the 22d ult.

The Globe says at the expiration of his well earned leave, Sir Colin Campbell will return to the Crimea to resume the command of the Highland Division.

The Moniteur publishes the following, dated—*Constantinople, Nov. 12.*—According to last accounts Omar Pacha was expecting battle. Gen. Mouravieff had detached a division from his army, which was advancing by forced marches on Kutais by the Akaska road—about eight thousand Turks.

Muler Musha Pasha had left Batoum to try and cut off this detachment. Early in the month they had recalled Osargethi. The commander-in-chief made them mob him at Kutais which will become the theatre of some important engagement unless the Russians surrender—retreating themselves in the defiles which protect the advance to Tiflis.

Berlin, Friday. The political circles here, especially the Kreuz Zeitung on Russian party, lare triumphant, while the western people dread German treason; they are loudly declaring peace or an adhesion with Russia as the alternative.

The Times city article says the Funds opened with firmness this morning, but the final quotation of yesterday, exhibiting a tendency to further improvements, but ultimately a gradual decline took place, the market closing with a general appearance of distress. The occurrence of sales in the absence of any announcements tending to confirm the report circulated during the past day or two, of new and important political arrangements, was a principal cause of the reaction, coupled with a less favorable appearance of the Continental Exchanges.

The mercantile advices from Paris continue to describe great steadiness.

St. Petersburg letters are to the 13th and quote exchange at 35.

Since the departure of the advanced portion of the allied fleets, a number of small vessels had been in communication with the coast of Finland and the fleet destined to convey munitions of war &c. to Sweaborg was understood to be waiting its opportunity.

Commercial Intelligence.

LIVERPOOL COTTON MARKETS. Brown, Shipley & Co. report the market dull and lower, especially for fair qualities, on which they quote a decline of 1-4 a 3-8, while the lower qualities have only declined about 1-8. There was but little speculative demand. Dennistown & Co., and the brokers' circulars agree with the above.

BREADSTUFFS. Messrs. Richardson, Spence & Co., a slight decline in breadstuffs, with a dull market. They call wheat 2d. dear 5d and corn 6d. lower. The weather had been favorable for sowing. Western Canal flour is quoted 42s 6d a 43s; Philadelphia and Baltimore 44s a 44 6d; Mixed corn 41 6d; white 50s. The circulars vary much, but the above quotations come nearest the average.

A letter from St. Petersburg says: "The new requirement has thrown the country into terror. It is doubtful if 400,000 men capable of service can be found. The towns and districts furnishing the recruits will be obliged to furnish them with fur cloaks, which is a heavy burden owing to the high price of furs."

Drigo Quadrille Band!

—Composed of the following members:—

J. G. WASGATT, Violin;
C. E. HOUK, do
J. T. CLARKE, Clarionet
C. W. SMALL, Flute;
O. H. LEATHE, Cornet;
J. D. CONLEY, Bass.

All orders left with J. T. CLARKE, at No's 10 and 12 Main street, will be promptly attended to. Any number of instruments furnished from one to ten pieces.

nov30 1w J. G. WASGATT, Business Director.

Independent Course.

The Fourth Lecture

Will be given on FRIDAY EVENING, Dec. 7, in Norombega Hall, by

EDMUND PHILLIPS, Esq.,

of Boston.

Subject—"The Philosophy of Reform."

Tickets for sale at the Bookstores and at the door. Price for the Course 75 cents—Single Lectures 25 cents.

Doors open at 6 o'clock—lecture commences at 7.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional News.

WASHINGTON, Dec. 5.

SENATE — Mr Hale submitted a resolution, asking the President to inform the Senate whether he had received any evidence of such obstruction to the execution of the laws in Kansas as to require the interposition of a military force

Mr Adams gave notice of a bill to amend the Naturalization laws — Adjourned.

HOUSE — The House adjourned, after taking the 1st ballot for Speaker.

The 1st ballot was — for Campbell 80, Rich ardson 71, Banks 8, Fuller 19, Marshall 6, Orr 2, Pennington 3, Whitney 1, Smith of Ala 9, Cumming 1.

From Kansas.

ST LOUIS, Dec 4

Accounts from Kansas state that an officer of the territorial organization of Free State men, who was captured by Atchison, with written instructions to burn down the town and murder all the men, escaped to Lecompton and delivered the papers to Governor Geary. Geary immediately issued orders from the Governor to Lecompton under orders from the Governor a requisition was sent to Weston for assistance, and a party despatched from the latter place last night.

Later from Kansas.

ST LOUIS, 5th

Kansas Free State papers give their version of the difficulties from which it appears a young man named Dow was shot by a Missourian named Coleman, who was discharged by the finding of a meeting of citizens on the spot pronouncing the acts a cold blooded murder, and in pursuit of some of the shooters Sheriff Jones arrested Jacob Brons, a German, whose house Dow lived, but he was rescued by his neighbors, whereupon Jones went to Pawnee for aid, declaring that the Governor had surrendered command of the Missourians except 10,000 men if necessary.

MEMPHIS, 4th.

Seventeen persons are missing supposed to have been burned during the steamboat fire yesterday — The Magnolia was valued at $100,000 — insured for $40,000. The Geo Collier was valued at $75,000 — insured for $15,000. The wharf boat contained $20,000 worth of goods.

JEFFERSON CITY, Mo., 4th.

No election of U S Senator will take place this session.

Resignation of Mr. Appleton.

WASHINGTON, 5th

Mr Appleton of Maine has resigned his place as Secretary of Legation at London. With the letters sent by government to Mr Buchanan, at that gentleman's request, there was sent an appointment of Mr Appleton as Charge d'Affaires ad interim, which Mr A declined — preferring to return to the U S where his private business demands his presence. We presume Mr Buchanan will not leave London now until his successor is on the spot.

It is reported here that Jos Lane has been appointed Brigadier General in the U S army.

Gov. Johnson of Virginia upon Free Soil Resolutions.

NEW YORK, Dec 5

The Virginia Legislature met on Monday. Gov Johnson, in his message, reviews resolutions from Rhode Island, Maine, Massachusetts and Connecticut, upon the establishment of territorial governments for Kansas and Nebraska, and their admission as States, and relative to the Fugitive Slave Law. He says "The whole scope and tenor of these resolutions is that war with Southern interests and institutions, and they are based upon the idea that the States are not entitled to equal rights, and that the people of one section are to be allowed privileges and capacities denied to another. This assumption should be met promptly. To allow deception to uphold not a day."

He then commends sharply upon the "Personal Liberty Bill of Massachusetts, which he says is precisely such a law of nullification the Constitution intended to guard against.

He then adverts to the very resolutions now suggested to the State, and thinks such measures being gravely adopted are solemn warnings of imminent danger, and that the southern people are becoming reanimated by the spirit of the fathers of the Revolution," in defence of their rights. He counsels the Assembly to take no rash step, but hopes when action is decided upon, "it shall be such as will vindicate our rights, redound to the honor of the Commonwealth and to the glory of the Union

FIRE — The store and stable of Capt Enoch Richardson of Jonesboro were consumed on Thursday night. Loss $2500 — partly insured

THE CONTEST AT WASHINGTON — On Monday evening, Horace Greeley telegraphed to the Tribune

The House will pretty certainly organize before adjourning on Wednesday. The pluralities vote all told is from 108 to 110 — giving the Israeli majority from four to eight. We must therefore triumph whenever our vote can be concentrated.

The Times correspondent writes:

The best feeling prevails, and the administration will be beaten finally

It is said that Pratt, Jones of Penn Toombs, and some other pro slavery Whig Senators, are about to transfer themselves formally to the Administration party.

THE COURTESY OF WOMEN'S RIGHTS IN EUROPE — It appears that the Home Secretary, Sir George Grey, have graciously conferred a large number of applications as to whether females were entitled to vote at the election under the Metropolis Local Management Act, submitted the question to the Attorney General, who decided that the ladies have a right to give their votes at such elections. — *Toronto Colonist.*

Not Gone Yet!

MISS CHADWICK has decided to remain in town a short time longer — will be at Mrs. Kimball's, Fourth st. Ladies wishing to consult the amiable Dr's method should call soon. nov27

Bangor dock, 1855.

California Steamers.

Carrying the United States Mail

5th and 20th of each Month

Reduced Prices 100 lbs Baggage Free

Through Tickets (including transit of the Isthmus) via Panama R R

By order of the Postmaster General the United States Mail Steamship New Yorker is dispatched from New York on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot Aspinwall, and conveyed across to the Pacific Steamers *each at 1 o'clock P M*. This is the *only line* giving entire through tickets including meals, to the Isthmus.

Transit is *performed by daylight* thus avoiding the usual night exposure to fever and ague, and the dangerous rapids in open boats to Cruces and the 2 2-3 miles of dangerous hills and river staging in other routes.

The Steamers have been employed so that the Panama Railroad Company's Mail Steamer will leave Panama on the arrival of the Mail Steamer from the United States, thus connecting in the Pacific Ocean with the Mail Steamer of the 1st and 20th of each month.

The Company's Office in the Aspinwall House will be opened by the Agent at Aspinwall on the 1st and 20th of each month, at which time passage can be obtained to San Francisco in the Pacific Mail Steamship Company's Steamer.

For further information apply at the Company's office, 56 Broad street, Boston.

August 1, 1855 ly

HARRISON'S

Columbian Tonic Stimulant

Will immediately relieve the most prostrated Dyspeptic. It is a great invigorator, and will instantly impart the vitality and energy to the whole system. It will sustain and perpetuate the action of the digestive organs until the food is digested, and will not only create an appetite, but will give the necessary strength to digest it. It will relieve Costiveness, Nervousness, Sick Headache, Dizziness, Coldness of the Stomach, Sinking and Faintness at the Pit of the Stomach, Heartburn, Wind on the Stomach, Bilious Attacks, Fever and Ague and in connection with *Harrison's Columbian Vegetable Emetic* will relieve the most obstinate cases of Dyspepsia and other troubles arising from a disordered state of the digestive organs. The Emetic will in all cases precede the use of the Stimulant, and in many cases will be sufficient to effect a cure without the use of the Stimulant. Both of these medicines are entirely vegetable, and are *recommended* as the most perfect remedies ever discovered for the above complaints, as well as all diseases originating from a disordered state of the stomach. It may be taken by persons of the most delicate constitution, as it contains no mineral poison whatever. It is highly recommended by all who have used it, and invariably gives satisfaction. Pamphlets containing certificates of cures, directions, &c., may be had of the Agents. Price $1 per bottle.

HARRISON'S
Columbian Vegetable Emetic

Will immediately relieve and expel all diseased matter from the stomach, liver or viscera from all parts of the system. Besides its emetic properties it is an extraordinary alterative, and anodyne. It acts in each of its offices according to *nature*, relieves the laboring organism of diseased matter, and permits it to perform its natural functions. It is the *only sure* and *certain* medicine in all severe forms of Cholera, Cholera Morbus, Bilious Cholic, Dysentery, Diarrhœa, and every other stomach disease. It instantly allays and arrests the most violent vomiting and purging, and will relieve the most distressing case in *One Hour*. *If the directions in the pamphlet are strictly complied with a cure will be effected in the first attack in all cases of Cholera.* Two bottles are warranted to cure the worst case of Dysentery, Diarrhœa, and Cholera Infantum. Three bottles will cure the worst case of Cholera Morbus. Two bottles will cure the worst case of Bilious Cholic. Two bottles will cure the worst case of Sick Headache. Two bottles will cure the worst case of Dizziness. Two bottles will cure the worst case of Coldness of the Stomach. Two bottles will cure the worst case of Sinking and Faintness at the Pit of the Stomach. Two bottles will cure the worst case of Heartburn. Two bottles will cure the worst case of Wind on the Stomach. Two bottles will cure the worst case of Costiveness. Two bottles will cure the worst case of Bilious Attacks. Two bottles will cure the worst case of Fever and Ague. Two bottles will cure the worst case of Nervousness. Two bottles will cure the worst case of Coldness of the Extremities. Two bottles will cure the worst case of Nervous Debility. Two bottles will cure the worst case of Nervous Headache. Two bottles will cure the worst case of Nervous Irritability. Two bottles will cure the worst case of Nervous Trembling. Two bottles will cure the worst case of Female Weakness. Two bottles will cure the worst case of Female Irregularities. Two bottles will cure the worst case of Female Obstructions. Two bottles will cure the worst case of Female Suppression. Two bottles will cure the worst case of Female Nervousness. Two bottles will cure the worst case of Female Hysterics. Two bottles will cure the worst case of Female Fits. Two bottles will cure the worst case of Female Spasms. Two bottles will cure the worst case of Female Pains. Two bottles will cure the worst case of Female Weakness. Two bottles will cure the worst case of Female Irregularities. Two bottles will cure the worst case of Female Obstructions. Two bottles will cure the worst case of Female Suppression. Two bottles will cure the worst case of Female Nervousness. Two bottles will cure the worst case of Female Hysterics. Two bottles will cure the worst case of Female Fits. Two bottles will cure the worst case of Female Spasms. Two bottles will cure the worst case of Female Pains.

Sold by the Proprietor, No 15 Canal street, Boston, and by Druggists and Dealers in Medicines throughout the United States, and in all the civilized world. Price $1 per bottle.

A MARVELLOUS REMEDY
For a Marvellous Age!!

HOLLOWAY'S OINTMENT!

The Grand External Remedy.

By the aid of a microscope we see pathons of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, inflammations of the Lungs, Asthmas, Coughs and Colds are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness—Holloway's Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume as this Ointment. No case of Salt Rheum, Sores, Sore Heads, Scalds, or Erysipelas, can long withstand its assaults. This incomparable Ointment has travelled over many parts of the globe visiting the principal hospitals, dispensing this Ointment, giving advice as to the application and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings and tumors. Mr. Lesser Holloway is the compound of the following ingredients, which he has found out by a long course of experiments, and which is the result of the most extensive practice, that has ever been placed within the reach of the public.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bad Legs, Piles,
Bad Breasts, Rheumatism,
Chapped Hands, Sait Rheum,
Chilblains, Skin Diseases,
Elephantiasis, Scalds,
Fistulas, Sore Throats,
Gout, Sore Heads,
Lumbago, Ulcers,
Mercurial Eruptions, Worms of all kinds,
Piles, Sores of all kinds.

Sold at the Manufactories of Professor Holloway, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers in Medicines throughout the United States, and the civilized world in Pots at 25 cts, 62½ cts, and $1 each.

☞ There is a considerable saving by taking the larger sizes.

☞ Directions for the guidance of patients in every disorder are affixed to each pot.

Try it! Try it!! Try it!!!

G. W. STONE'S
LIQUID CATHARTIC
—AND—
FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of herbs and roots which forms the most powerful, safe and agreeable physic ever offered to the public.

THE necessity of such a medicine having been felt both by the faculty and by physicians, the invalid has ever been subject to the fatal error of purchasing worthless nostrums, or else submitting to the use of calomel, which is generally at this time of the year, more than usually active in the system and at the same time is more difficult to be administered, and is quite a severe shock to the constitution. Both of these difficulties all the effects is here obviated, as it is required but to be completely relieved over many parts of the globe visiting the principal hospitals, dispensing this Ointment, giving advice as to the application and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.
